

## Brookes Bell Hong Kong Seminar: The Brookes Bell Kaleidoscope

Using case studies and personal technical experiences, our multi-disciplinary team of experts will discuss some cutting-edge developments in the maritime industry. Through a range of different case studies, our experts will show our involvement and preparation for these changes.

Topics may include:

- Mineral Fraud
- 2020 Low Sulphur Fuel Rules
- Corrosion Issues with Scrubbers
- New Caledonia – Doing their own thing with nickel ore
- New Provisions for Group A Cargoes – Will it make a difference?
- Palm Kernel Shell – How an unknown cargo became a regulated hazardous goods
- Use of Pesticides on Ships – From recommendations to rules. How will this change the practice?

MAY 2019
