

Invitation to Seminar

Donald Ross and Dave Myers from our Singapore Office
will be giving talks on their fields of expertise.

Ports & Marine Terminals – Loss Prevention & Claims Handling

Our civil engineer, Donald Ross, will share with you his experience of ports and marine terminals and how actions can be taken to prevent incidents and mitigate the effect when claims do occur.

Fire Investigation – Engine Room Fire & Self-Heating Cargo

Our fire investigator, Dave Myers, will introduce the fundamental techniques used during the forensic investigation of a fire or explosion. He will also look at the common cause of fires in engine rooms and problems encountered with self-heating cargoes. This will include discussion regarding appropriate firefighting techniques and minimising firefighting damage to cargo.

(Due to business commitments the presentation topic may change at short notice.)
