| Speaker | Content |
|-----------------------------|---|
| Voice Over | Thanks to its many endowments, Hong Kong has |
| | evolved from a fishing village into a global financial, |
| | trade, logistics, communications and shipping hub that |
| | prides on its world-class infrastructure, connectivity, |
| | efficiency, and professionalism. |
| Professor Anthony Cheung | Hong Kong has a long maritime history, its deep water |
| Bing-leung | harbour, its strategic geographical location, its |
| Secretary for Transport and | entrenched institutional strengths and its active |
| Housing | maritime services cluster have together made Hong |
| The Government of the Hong | Kong a world renowned international maritime centre. |
| Kong Special Administrative | Also, Hong Kong has a stable and business-friendly |
| Region | environment with superb global connectivity. |
| | |
| Chairman | |
| Hong Kong Maritime and | |
| Port Board | |
| (Voice Over) Haven for | Hong Kong is seen as a haven for maritime business. |
| Maritime Business | It is the home to one of the world's largest shipping |
| | communities, with 9% of the world's merchant fleet |
| | and a vibrant maritime cluster of some 800 companies |
| | providing a gamut of shipping services. |
| Ms Sabrina Chao | Hong Kong has a very strong maritime heritage. We |
| Chairman | have the whole spectrum of maritime services in Hong |
| Hong Kong Shipowners | Kong, so if you come to Hong Kong and utilise the |
| Association | maritime services that are set up here, we can |
| | guarantee you that level of service and efficiency. |
| | Another advantage that Hong Kong has is our location. |
| | We are located at the centre of Asia, and our proximity |
| | to China gives Hong Kong the natural advantage of |
| | becoming the super connector between China and the |
| | rest of the world. |
| Mr John Bruce Rae-Smith | There are many great things about Hong Kong. But I |
| Executive Director | think if you are thinking about setting up a shipping |

| (Trading and Industrial | company or a marine business here, the most important |
|--------------------------|--|
| Division) | thing is a user-friendly Marine Department that can |
| Swire Pacific Limited | help us through the regulations and dealing with all the |
| | permits. And then, most importantly, Hong Kong has |
| | great people. Hong Kong has people with great work |
| | ethic and entrepreneurial spirit. If you want to |
| | succeed in your business, then good people are keys to |
| | your success. |
| (Voice Over) World-class | Hong Kong, a preferred hub port in the region, is |
| Hub Port | situated along the Far East trade routes. The busy |
| | port has the capacity to handle 66 900 twenty-foot |
| | equivalent units (TEUs) of containers on average every |
| | day. |
| | As a regional hub, Hong Kong offers about |
| | 340 container liner services per week, connecting |
| | some 470 destinations worldwide. |
| | The hub functions of Hong Kong Port back up the |
| | vigorous development of the maritime industry. |
| Miss Jessie Chung | The five first-class container terminal operators |
| Chairman | provide efficient, reliable and quality services. We |
| Hong Kong Container | frequently upgrade our port facilities and apply |
| Terminal Operators | up-to-date information technology to help enhance the |
| Association | port efficiency and handling capacity. |
| | Currently, Hong Kong Port has cargo movements to |
| | and from about 45 economies along the Belt and Road |
| | corridors. |
| | |
| Mr Gerry Yim | The Hong Kong Port is an important pillar of the Hong |
| Managing Director | Kong economy and generates over 90 000 jobs for the |
| Hongkong International | local economy. Given the substantial investment it |
| Terminals Limited | has made to enhance its capability and productivity in |
| | recent years, and thanks to the Government's |
| | continuing support to the industry, the Kwai Tsing |
| | Container Terminals today remain one of the most |

| | efficient terminals in the world. |
|----------------------------|--|
| Mr Andy Tung | Liner shipping services play an indispensable part of |
| Chief Executive Officer | the Hong Kong economy, particularly as it relates to |
| Orient Overseas Container | the trading business, which contributes some 20% of |
| Line Ltd | Hong Kong GDP. Liner services also bring along |
| | other services, such as ship husbanding and crew |
| | management, as well as a host of other related port |
| | services. |
| | |
| (Voice Over) Reputable | The Hong Kong Shipping Register ranks 4th in the |
| Shipping Register | world. Its autonomous status is provided under the |
| | Basic Law, Hong Kong's Constitution. |
| Mr Arthur Bowring | The Hong Kong Shipping Register is found on two |
| Managing Director | basic principles. One is quality and the other one is |
| Hong Kong Shipowners | user-friendliness. The quality of the ships on the |
| Association | Register is kept extremely high through inspections |
| | and monitoring by the Marine Department. And the |
| | administration fee of the Register through the |
| | user-friendliness is kept very low. So shipowners |
| | feel they have a responsive Marine Department they |
| | can speak to. These are both very important issues |
| | for shipowners. |
| (Voice Over) Excellent | Hong Kong derives unique advantages under the |
| Maritime Legal and Dispute | principle of "One Country, Two Systems". Under |
| Resolution Centre | One Country, it benefits from the world's biggest |
| | manufacturing hinterland and market. Under Two |
| | Systems, it operates autonomously. It upholds |
| | judicial independence and the rule of law, and |
| | continues to practise common law and the statutory |
| | law in force prior to the handover. Major |
| | international shipping laws apply to Hong Kong. |
| Miss Rosita Lau | Hong Kong has all along been ruled by the rule of law. |
| Partner | Everybody is equal before the law, including the |
| Ince & Co | Government. No one is above the law. |

| Ms Teresa Cheng, SC Chairman Hong Kong International Arbitration Centre Mr Li Lian-jun Partner Reed Smith Richards Butler | Our maritime law is modelled on English maritime law, which everybody knows is the most established and popular maritime law. We also adopt the common law system, which is the world's most popular legal system. We offer certainty and stability to maritime industry players by our maritime legal services. Hong Kong is internationally renowned for its judicial independence. We were ranked 4 th in 140 jurisdictions in the world and 1 st in Asia in terms of judicial independence. This was ranked by the World Economic Forum in their Global Competitiveness Report done in 2015. By arbitrating in Hong Kong, which of course is a very good place for arbitration, the arbitration award will also be enforced in over 150 jurisdictions around the world under the New York Convention. Hong Kong's commercial and shipping statutes are comprehensive and updated. Hong Kong has a specialised Admiralty List in the High Court which is in charge by a dedicated Admiralty Judge. In fact, Hong Kong court has been providing 24/7 admiralty |
|---|---|
| | Hong Kong court has been providing 24/7 admiralty services to the shipping industry. |
| (Voice Over) World-class | A topmost international financial centre, Hong Kong is |
| Ship Finance and Marine | the freest market, with major multi-national top banks |
| Insurance Services | and bookrunners. Under a transparent regulatory |
| | regime, financial institutions can freely develop products for various investment needs. |
| Mr David Cheng | Most of the international ship financiers in Hong Kong |
| Honorary Chairman | have good network in distribution and syndication. |
| Credit Agricole Asia | They also have the capability of tapping the global |
| Shipfinance Limited | |

| | some of them have established very strong working |
|------------------------------|---|
| | relationships with the export credit agencies of the |
| | three shipbuilding nations in the world, namely China, |
| | Korea and Japan. |
| Voice Over | The marine insurance market thrives in Hong Kong. |
| | It continues to expand with a full range of insurance |
| | services available from internationally renowned |
| | providers, serving different shipping operations, both |
| | general, specialised and niche. It is noteworthy that 12 |
| | out of the 13 International Group of Protection & |
| | Indemnity Clubs have offices in Hong Kong. |
| | Shipowners can manage complex risks effectively. |
| Professional Support and | Professionalism is yet another key feature of Hong |
| Manpower Development | Kong. Players in the shipping industry can count on |
| | readily available technical support and advice from |
| | internationally qualified and skilled professionals on |
| | shipbroking, ship surveying, ship repair and other |
| | support services. |
| | The Hong Kong Special Administrative Region |
| | Government is keen to foster maritime professionals |
| | and talents. It has set up the Maritime and Aviation |
| | Training Fund to attract youngsters to join the industry |
| | through various incentive and scholarship schemes. |
| Mr Irving Koo | The Maritime and Aviation Training Fund was set up |
| Managing Director | by the Hong Kong Special Administrative Region |
| Trion Pacific Limited | Government in 2014 with an initial funding of |
| | HK\$100 million (around US\$12.9 million). At the |
| | moment, there are no fewer than 12 different schemes |
| | in operation under the Fund. On that basis, we are |
| | looking to provide more training opportunities for |
| | practitioners with a view to further grooming and |
| | expanding Hong Kong's talent pool. |
| (Voice Over) Suner connector | |
| (Voice Over) Super-connector | Over half of the world's population lives within five hours' flight from Hong Kong. Its strategie |
| between Mainland China and | five hours' flight from Hong Kong. Its strategic |

| In the number of the international and the second | the World | location and connectivity attract shipping companies |
|---|-----------------------------|--|
| With a vibrant maritime services cluster, Hong Kong is well positioned to serve as a springboard for global-going shipping enterprises in Mainland China. It is also an ideal regional base for foreign companies seeking to tap into the emerging Mainland market.Mr George Yeo Chairman Kerry Logistics Network LimitedHong Kong has been described as a super conductor. It is like a giant server or giant router. Anything that comes through here moves faster. Anything that you sell here can be sold more expensively. Anything that you buy here can be bought more cheaply. So that is Hong Kong's unique function as an efficient hub and efficient node in the global network.Mr Willy Lin CouncilThe world-class infrastructure of Hong Kong offers a wide choice of multi-modal transportation links to shippers' a world-class international airport, a deep-sea port renowned for its efficiency and seamlessly connected to Mainland China, a large amount of cargo is moving between Hong Kong and Southern China daily. Mainland and Hong Kong and Southern China daily. Mainland the Mainland.Professor Anthony Cheung Bing-leung Secretary for Transport and HousingIn April 2016, the Hong Kong Special Administrative Region Government established the Hong Kong is to provide a platform for closer collaboration | | |
