

香港海運週 2023 11. 19-25 HONG KONG **Maritime Week**

Approaching the Grand Opening of Hong Kong Maritime Week 2023, we offer a glimpse behind the scenes as final preparations are made for Hong Kong's largest maritime gathering.

Miss Rosita Lau, Chairman of the Promotion and External Relations Committee (PEC) of the Hong Kong Maritime and Port Board's (HKMPB) welcomed organisers for staging close to 50 events during Hong Kong Maritime Week (HKMW) during the HKMPB's organised **"Get-Together"** on 7 November. At the **"Get-Together"**, spirits were high and anticipation was building as representatives from organisers made presentations highlighting the events and activities under various themes that will form the beating heart of the seventh edition of HKMW. Organisers excitedly shared highlights of their events; new bonds were cemented and old acquaintances were reinforced with the aim of making next week's HKMW the best.

This year, HKMW welcomes a several new organisers and events. Among them are INTERTANKO, a renowned trade association that has been the voice of the tanker industry since 1970. The Association will hold the second of its biannual panel meeting for its members and invitees on 23 November.

Charles Taylor Adjusting will present **"Technical Discussions on Future Fuel Risks"** on 21 November.

Maritime Law firm Watson Farley & Williams is resuming its annual maritime seminar in Hong Kong with **"Stay Resilient: Navigating Challenges and Opportunities in Maritime"** to be held on 22 November.

Xinde Marine Forum, the brainchild of Mainland China's shipping services company Xinde Marine, presents **"Shipping Decarbonization and Newbuilding"** on 22 November.

Other events to note include the **"Capitalizing Hong Kong's Maritime Edge – Ship Leasing, Maritime Arbitration and Beyond"** which is the theme of the Hong Kong Maritime Arbitration Group's event this year. The panel discussion scheduled for 21 November is arousing special interest because the tax generous concessions for ship leasing firms introduced by the Hong Kong SAR Government in 2020 will be featured prominently.

Weather intelligence provider StormGeo continues to show support to HKMW by showcasing its voyage optimisation technology and more during **"Smart Green Sailing 4Cs – Climate, Compliance, Carbon, Cost"** to be held on 21 November.

Event organisers are reporting vigorous activity booking. Do register the activities you wish to attend as soon as possible to avoid disappointment. For details of all the activities during HKMW, please visit https://www.hkmw.hk/en/activities_summary.html.
